Größe: 1,80 m
Konfektion: 36

Erfahrung

Masters in Chemistry, I also have research experience and have done a project titled "Spectrophotometry Study of the anticipated and objectionable metals in carbonated soft drinks of different trademarks." as my graduation thesis. I had opportunity to conduct this research work at Pakistan Council of Scientific and Industrial Research which is top research institute in Pakistan. I have also worked on "Preparation and physiochemical evaluation of PVC sodium polyacrylate and PVC-sodium polyacrylate Graphite based composite polymer membrane". Two research publications are under process.
