Erfahrung

ENGLISH:

Hi! I am Anna, 20 year old Communication and Management student from Friedrichshafen. In the past years I worked for various companies and did different kind of work. For example I worked for the main train company in Germany, Deutsche Bahn. I worked as a promoter in the train. My main task was giving flyers to customers. Another work for Deutsche Bahn was showing and informing clients about new train ways. I also have experience in the gastronomy. I worked in a restaurant as a waitress and as breakfast service help in a hotel. Except that I did two internships in media companies. I worked there as a social media manager and photographer. In addition I worked several times as a promoter for a online clothing selling platform in one of the most famous german store called Breuninger.
